

Order Code: JM-200PFC

PRO MIG 200 Multi Process PFC Inverter

The Jasic MIG 200 PFC Compact operates on a wide input voltage range, 95-270V and is equipped with powerful IGBT components and a singular PCB for improved efficiency and maintenance.

This compact technologically advanced inverter is extremely user-friendly and offers reliable and consistent arc for both MIG/MAG and MMA performance.

Offering a stable arc and reliable performance with the added benefit of being dual voltage makes this machine your perfect partner for site work, maintenance and light fabrication.

Optional
Trolley JIT-01

Key Features

- IGBT MIG/MMA Multi Process Inverter technology - for the professional user
- Wide input voltage range including 115/230V
- PFC - Energy saving benefits for the user
- Single PCB compact welding inverter
- Stable arc and reliable performance
- Suitable for 0.6 to 1.0mm wires
- Compact size, lightweight and modern design
- Burn back control
- Ideal for production, site work & maintenance
- Reverse polarity
- Can weld electrodes of up to 4mm
- Generator friendly**

Technical Data

AC 95-270V - 50/60 Hz
