

Order Code: JT-200DS

PRO TIG 200P AC/DC Mini Digital

The JASIC TIG 200P AC/DC mini is a technologically advanced single-phase inverter power source offering an ultra portable solution. The innovative and user-friendly control panel offers a digital weld cycle, welding modes and a program memory feature for storing different welding parameters.

The excellent technical characteristics of the 200 AC/DC make it an ideal choice for professionally qualified TIG welders that require precise and reliable performance.

Foot Control Unit JFC-05

Optional Trolley JIT-01

Key Features

- TIG Pulse AC/DC with digital control
- Digital display
- Program memory storage
- Easy to use, intuitive control panel
- Pre-post flow time, up/down slope
- Pulse adjustment
- Pulse frequency, pulse duty, arc force, cleaning width
- Remote control interface
- AC function for aluminium and aluminium alloys
- Heavy duty 35-50mm dinse sockets
- DC TIG function for carbon steel, copper and non-ferrous metals
- High speed pulse with precise adjustment for ultimate weld bead
- Generator friendly**

Technical Data

AC 230V - 50/60 Hz

TIG: 5 - 200
MMA: 10 - 160
